Billing Practices

Billing Increment:

☑ One-Tenth Hour

☐ One-Quarter Hour

☐ Other _____

Annual Rate Adjustments

Describe your firm's approach to annual rate adjustments.

Annual rate adjustments help ensure we can continue providing reliable, high-quality service. We evaluate factors such as inflation, labor and material costs, market conditions, and ongoing investments in our products and services. Any adjustments are made thoughtfully and are intended to support the long-term value, performance, and service our customers expect from us.

Reimbursable Expenses Actual expenses such as postage, photocopies, translation services, mileage, or courier fees are invoiced consistent with the actual expense incurred.

Please identify any expenses billed separately.

Alternative Fee Arrangements

Please describe any alternative billing options your firm offers (monthly retainers, fixed-fee projects, blended rates, etc.).

When it comes to pricing, we do not believe that one size fits all. We have a partnership philosophy which begins with each client's budget and expectations for legal services. We have been successful over the years in crafting creative fee arrangements which serve our client's unique needs. We have used hourly rates, tiered rates, flat fees, variable discounts, retainers, "true-ups," value or results-oriented systems, and other payment structures – all of which are designed to value efficiency and promote each party investing in the other to achieve a successful partnership. Any project rate or retainer would be discussed in advance, mutually agreed upon, and, for a retainer in particular, would be based on the volume of anticipated legal services communicated to us.

Value-Added Services Included at No Additional Charge

Miller Johnson provides many resources to its clients at no cost. Some are educational resources that include client alerts, webinars, podcasts, blogs, newsletters, and video updates. Others are discussing and considering more theoretical implications of what a particular client's project may have on an unbilled basis as it does not directly apply to the project at hand.

The main area we provide a value-add, however, is in the Miller Johnson approach to these types of transactions and interactions with counterparties and clients. As indicated, we take a partnership approach with the client in which we don't only advise of legal risks and leave the client to evaluate those risks in light of the bigger picture and practical realties.

Rather, we endeavor to understand the client's business, its pain points, its preferences, its strategies, and its goals, and then apply that understanding to our analysis of the legal risks and the most efficient, practical way to manage them. We look forward to doing the same for you.
